

The "FIRST Response Box"!

Imagine that the above

MARBOOM - "FIRST Response Box", (also available in various bulk and pallet plastic containers), holds between 1,300 – 2,600 ft. (400 - 800 meter) of Boom, equivalent to 550 – 350 ft. /10 cub. ft. (600 - 400 meter/m³).

- *Minimal space is required to stow a large supply onboard any vessel for an immediate FIRST Response.*
- *Making the MARBOOM "FIRST Response" easy to handle, practical to stow and provides favorable transportation costs.*
- *The long length of MARBOOM can easily be cut to any length required, as the remainder stays stowed in the "FIRST Response Box".*
- *The boom and all packaging materials are 100% recyclable.*

Be ready with the MARBOOM "FIRST Response" Program!
